PRODUCT DESCRIPTION

Roll container cover for temperature insulation which is made of high-quality silver PES foil with a 3mm thick air cushion film. The isothermal cover is textile reinforced on one side and is therefore also suitable for multiple uses. The 2 zippers on the front ensure that the isothermal cover can easily be applied or removed and that the goods in the container are accessible without having to remove the cover. The cover also protects the products that you are transporting from dust, dirt and water. The weight of the isothermal cover is 2.70kg and has outside dimensions of 1475x820x735mm and inside dimensions of 1450x815x724mm.The isulation cover is intended for multiple uses. The thermal conductivity is 0.344 (W/mk), the thermal resistance is 0.09 R and the K value is 11.46k (W/m2K).
