### PRODUCT DESCRIPTION

## New collapsible wire container 800x600x700mm

This metal wire collapsible container has the outside dimensions and the inner 800x600x700mm sizes are 726x569x571mm. The metal is electrolytically galvanized. With a maximum load capacity of 300kg is a strong thread container for this format. These wire collapsible container is provided with the first wing frame on the long side, and they are mutually stackable. Because the wire container is collapsible you can save a lot of space during return transport or if they are in storage when not in use. The collapsed height is 240mm. you can stack 9 folded wire containers on a pile of 2395mm. This wire containers are, inter alia, used in the automotive industry, mussel farms, and they are perfectly suitable for the storage of items such as production waste, parts and components for the manufacturing for cars. This wire container has a practical design and is highly resistant to damage.
