PRODUCT DESCRIPTION

Used American pallet 1220x1015x120 mm - open deck

This used pallet with particularly large dimensions of 1220x1015x120 mm is immediately ready for transport and storage. Thanks to these dimensions, this pallet is also classified as an American pallet. The pallet is equipped with a very sturdy upper and lower deck and three beams. The beams have recesses so that a forklift can still approach them and lift.

American pallets are widely used in harsh environments such as the stone industry, construction, horticulture and other sectors where a lot

of the material is required.
