PRODUCT DESCRIPTION

Wood display pallet 600x400x107mm

One-time light wooden disposable pallet is provided with a ISPM 15 treatment and kiln dried back to a moisture content of $\leq 25\%$. The dimensions are 600x400x107mm. Usually widely used in the export and to present products directly in a store. The pallet has a load capacity of approximately 500 kilograms. The pallet is made of Central European spruce wood. Despite what the name suggests, a single pallet can be used longer with proper care and handling of it.
