### PRODUCT DESCRIPTION

## New Chemical Pallet - 1140x1140x156mm

This CP8 chemical pallet has the dimensions 1140x1140x156mm and is made of sturdy wood. This type of pallet is specifically used in the transport of chemical products, liquids and drums in the chemical industry. This pallet is specifically usable for the transport of big bags with bottom discharge, because the pallet has an opening in the middle. The CP8 pallets are resistant to heavy loads and have a solid structure. The maximum load capacity of the pallet is 1500 kilograms. This pallet is provided with an all-round bottom deck and the pallet also has +/- ten top boards, twelve blocks and four intermediate boards. The pallet weight is 28 kilograms. This chemical industry pallet can be used several times with good care!
