Outside dimension length	1200
Outside dimension width	800
Outside dimension height	123
Static load	1500
Dynamic load	750
Material	Wood
Status	New
Product	new

PRODUCT DESCRIPTION

One-way medium wooden pallet 1200x800x123 mm

One-way medium weight pallet with 6 top boards. The dimensions of the pallet are 1200x800x123mm and the pallet is ISPM15 treated. This makes this pallet extremely suitable for export outside the EU. An ISPM15 treatment means that the wood is treated and artificially dried in certified drying treatment rooms, especially for wooden packaging. Thus transporting it all over the world. The pallet can be accessed from 4 sides and can be handled with a lift or pallet truck. The dynamic load capacity of the pallet is approximately 750kg and therefore suitable for medium loads.
