PRODUCT DESCRIPTION

Cardboard pallet - 1200x1000x110mm, 100% recyclable

Cardboard pallet with dimensions of 1200x800x110mm. The pallet has a very light weight of 3kg. The pallet is equipped with 3 skids and a fully enclosed upper deck. The static load capacity is 500kg. However, this does depend on the load, because it is very important to load this pallet proportionally. We do not recommend point loading! Our cardboard pallets are often used in aviation and are suitable for export.
