

Euro Sump Drip Tray with Grid - 1310x910x380mm, 230L

SKU 20203

Plastic drip tray (1310x910x380mm) with 250kg load capacity and 230 litres capacity. This sump is resistant to chemicals and UV radiation, making it the ideal solution for safely collecting liquids and protecting the environment.

TECHNICAL DATA

Outside dimension length	1310
Outside dimension width	910
Outside dimension height	380
Carry weight	250
Material	Plastic
Status	New
Product	new
Type	Spill pallets

PRODUCT DESCRIPTION

Drip tray with grid 1310x910x380mm - MDPE plastic

Plastic drip tray including grid (1310x910x380mm), specially designed for safe collection of liquids and offers protection against leaks. With an impressive load capacity of 250kg, this drip tray offers a reliable solution for handling various materials and chemicals, including drums and barrels. The plastic container is made of durable MDPE (Medium-Density Polyethylene) plastic, making it resistant to chemicals and UV radiation. This makes the drip tray suitable for use in various environments, such as factories, warehouses, workshops and laboratories.

This model is equipped with handles, making it easy to move. With inspection holes in the grid, this product offers optimal control and easy disposal of collected liquids. This ensures a safe and efficient working environment. With a weight of only 17kg, it is lightweight and easy to handle. The spacious capacity of 230 litres offers sufficient capacity to collect and manage large quantities of liquids. The black design provides a professional look and makes any liquids clearly visible.
