TECHNICAL DATA

Outside dimension length	805
Outside dimension width	405
Outside dimension height	155
Material	PE
Status	New
Product	new
Type	Spill pallets

PRODUCT DESCRIPTION

Plastic drip tray 805x405x155 mm - without grid

Small variant liquid collector made of high quality Polyethylene (PE). Due to the high-quality plastic, the container is resistant to chemicals, including bases and acids. Often used in the chemical industry. The size of the container is 805x405x155 mm, the dimensions correspond to Euronorm type containers. The capacity of the collection container is 30L. The bins are stackable to save space in transport and storage. In addition, the bin is easy to keep clean for optimum ease of use. The bins can be cleaned by means of a high-pressure sprayer. The weight of the drip tray is 3kg.

Drip trays are an important part when working with hazardous or toxic substances, for example in the chemical or pharmaceutical industry.
