Outside dimension width	1300
Outside dimension height	500
Material	PE
Status	New
Product	new
Type	Spill pallets

PRODUCT DESCRIPTION

**Collection container 2665x1300x500mm -
capacity 1100 liters**

Plastic collector with dimensions 2665 x 1300 x 500 mm. These bins are specially designed with a low height, for use under pallet or warehouse racking to collect drips and spills from IBCs and other storage containers. The own weight of this collection container is 34 kilograms and the capacity is 1100 liters. The material of the collection tray is made of 100% recyclable Polyethylene (PE) and the tray is UV resistant. The bins are also nestable and can be stacked up to 10 pieces high, the dimensions are then 2750 x 1300 x 1600 mm.

The collecting tray can be placed under a storage rack. Drip trays / collection trays are an important part when working with hazardous or toxic substances, for example in the chemical or pharmaceutical

industry.
