**PRODUCT DESCRIPTION**

**Large plastic drip tray 1380x1290x480mm - with grid**

Large liquid sump is provided with a grating. The grid Provides the ability to store dripping or leaking substances and to absorb the liquid in the receptacle. The collecting tray is Entirely made of PE plastic and has a capacity of 485 liters. PE stands for high quality polyethylene. The dimensions of the tray are 1380x1290x480mm. Such dimensions make it possible to place four drums. In Addition, the collector has a maximum load capacity of 1250 kg, Therefore it is Suitable for heavy loads. The fluid receptacle can be Transported with Virtually any lift and pallet truck.
