**PRODUCT DESCRIPTION**

**Plastic pallet 1200x800x160mm - with metal reinforcement**

A new, of HDPE plastic material pallet provided with four metallic pipes in the upper deck. This pallet has an open deck with raised edge, and non-skid caps where pipes are to be processed. The upright rim ensures that plastic containers do not shift from the pallet. The dimensions are 1200x800x150mm. The solid 3 slides carrying the pallet and by the reinforced upper deck, this pallet has a maximum dynamic load of 1000 kilograms, a static load of 5000 kg, and the load when placed in a rack is 400kg. The own weight of the pallet is 17kg. Deze plastic pallets are export finished without any further processing.
