Dynamic load	1200
Material	HDPE
Status	New
Product	new
Type	Export pallets, Pallets With Closed Deck

PRODUCT DESCRIPTION

Plastic pallet 1200x800x153 mm - PE-PP Mix

This euroform pallet of 1200x800x153mm has a weight of 5.7 kg, with a dynamic load capacity of 1200 kg. The pallet has a raised edge so that the load stands firmly and safely on the pallet. The pallets are nestable, which means they take up less space and are therefore cheaper to transport.

Plastic type of pallet

This pallet is made of PE-PP plastic, which is why the pallet is also suitable for humid environments. The closed deck makes it easy to clean the pallet thoroughly and dry it quickly. The temperature range of this plastic is from -40 °C to +70 °C.

Accessories for Euro pallets

Our pallets can easily be converted into pallet boxes for optimal protection of your products.
