PRODUCT DESCRIPTION

Plastic pallet with closed deck, 1200x1000x153 mm

This sturdy plastic pallet made of PE-PP mix plastic does not absorb liquids and is immediately suitable for transport and storage with its modular standard size of 1200x1000x153 mm. With a load capacity of no less than 1200 kg, this is one of the stronger pallets. This plastic pallet is equipped with a closed top deck and raised edge. Thanks to its nestability, it is extra compact for return transport or storage outside peak seasons. In addition, of course, it is also suitable for the export sector. Suitable for temperatures from -40 to +70 °C.

In addition, our pallets are super easy to convert into a pallet box, which offers optimal protection to your products.
