### PRODUCT DESCRIPTION

## Small nestable plastic pallet display 600x400x120mm - open deck

Small plastic nestable display pallet with a maximum static load of 400 kilograms, in addition, a maximum dynamic load of 200 kilograms. Lightest variant display pallet in its class, but a strong and stable structure. The pallet is provided with four hollow legs, and a rasterized upper deck. Because of the hollow legs of the pallet is nested, nested pallets take up less space. Because these display pallets take up less space, they are also cheaper to transport. The dimensions of the display pallet are 600x400x120mm.
