Pallet 1200x800x125 mm - plastic, nestable, with rim, 900 kg

SKU 21495

Plastic pallet 1200x800x125 mm extra light for export. With 9 legs and equipped with a raised edge. This pallet has a static load capacity of 2000 kg and a dynamic load capacity of 900 kg.

TECHNICAL DATA

Outside dimension length	1200
Outside dimension width	800
Outside dimension height	125
Static load	2000
Dynamic load	900
Material	PE
Status	New
Product	new
Type	Export pallets

PRODUCT DESCRIPTION

Pallet 1200x800x125 mm - plastic, with edge, 900 kg

This nestable pallet is a lightweight pallet with a raised edge. Ideal for transporting and storing crates or boxes, for example. The dynamic load capacity of the pallet is 900 kg, which is extremely high for a pallet with a dead weight of only 4.7 kg. The dimensions of the pallet are 1200x800x125 mm.

The dynamic load is 900 kg and the static load is 2000 kg. This pallet is compatible with the Euronorm container dimensions. There are 60 pallets in a stack if you want to transport them empty and nested.

Packaging and pallets based on the modular Euro format (1200x800 mm) ensure optimal use of space when used together for transport and storage.
