PRODUCT DESCRIPTION

Heavy plastic pallet 1200x1000x160mm, closed deck - circumferentially extended extending bottom deck

Solid mono-block pallet produced from recycled HDPE. The bottom deck of the pallet is extended extending circumferentially, the upper deck is closed. The dimensions of the pallet are 1200x1000x160mm. The pallet is designed for installation in racks / structures with heavy products. The pallet design Provides a very strong structure, whereby the pallet can withstand very heavy load. The racking load-bearing capacity of the pallet is no less than 800 kilograms. The maximum static load is 4500 kg with a maximum dynamic load of 1500 kilograms. Because the pallet has

five carriages (all-round bottom deck) is easy to handle and place into storage racks.
