Pallet 1200x800x155 mm - open deck, nestable, with edge, 900 kg

SKU 21800

Pallet 1200x800x155 mm made of plastic with a weight of 5.3 kg. With 9 legs and equipped with a raised edge. This pallet has a static load capacity of 2500 kg and a dynamic load capacity of 1100 kg.

TECHNICAL DATA

Outside dimension length	1200
Outside dimension width	800
Outside dimension height	155
Static load	2500
Dynamic load	1100
Material	PE
Status	New
Product	new
Type	Export pallets

PRODUCT DESCRIPTION

Pallet 1200x800x155 mm - open deck, nestable, with edge, 900 kg

This strong nestable pallet made of recycled PE-PP mix plastic is ideal for the transport and storage of, for example, crates or boxes. The dynamic load capacity of the pallet is 1100 kg, which is extremely high for a pallet with a dead weight of only 5.3 kg. The dimensions of the pallet are 1200x800x155 mm.

This pallet also has a static load of 2000 kg. This pallet is compatible with the Euronorm container dimensions. There are 53 pallets in a stack if you want to transport them empty and nested.

Packaging and pallets based on the modular Euro format (1200x800 mm) ensure optimal use of space when used together for transport and storage.
