

## Plastic Pallet - 1200x800x140mm - Open Deck, 1000kg Load

SKU 28790

Plastic pallet with dimensions of 1200x800x140mm. The pallet has an open deck and a raised edge. Its weight is 5kg. The static payload is 1800kg and the dynamic payload is 1000kg.

### TECHNICAL DATA

Outside dimension length	1200
Outside dimension width	800
Outside dimension height	140
Static load	1800
Dynamic load	1000
Material	HDPE
Status	New
Product	new
Type	Export pallets

### PRODUCT DESCRIPTION

## Plastic pallet 1200x800x140 mm - HDPE plastic

Plastic pallet with dimensions of 1200x800x140 mm. The pallet has an open deck and is nestable. Its own weight is 5 kg. The static payload is 1800kg and the dynamic payload is 1000kg. The z-profile gives the pallet an extremely high bending stiffness with a high load capacity distributed on 9 legs. The black pallet consists entirely of HDPE plastic. The nest height is 40 mm and the pallet has a 5 mm anti-slip edge.

The dimensions are based on those of the standard Euro-sized pallet (1200x800 mm) ensuring optimum use of space when used together for

transport and storage. They can be transported with 56 in a stack at a time.
