Isothermal Distribution Container - 600x400x300mm

SKU 2R2325

Isothermal distribution container for pharmaceutical products whose transportation requires maintaining appropriate temperatures. RFID sensor allows tracking of transport and storage conditions.

TECHNICAL DATA

Material	Plastic
Status	Used
Inside dimension length	370
Inside dimension width	210
Inside dimension height	150
Outside dimension length	600
Outside dimension width	400
Outside dimension height	300
Static load	2000
Dynamic load	1000
Product	used, for rent
Type	Distribution boxes, Boxes with lid

PRODUCT DESCRIPTION

Isothermal Distribution Container - 600x400x300mm

Isothermal plastic distribution container for products requiring specific transport conditions. The capacity 11.5 Litres. Depending on the number of cooling inserts, it is possible to maintain two temperature ranges: 2-8 deg C or 15-25 deg C, for up to 72 hours. The plastic container is equipped with a special insert, providing temperature insulation. The use of an additional sensor, makes it possible to track the temperature and any shocks during transport.

Maximum tightness, track&trace with RFID reader

Thanks to its robust design, the container provides maximum airtightness and insulation from external conditions. Special holes in the integrated lids provide the possibility of sealing the isothermal container for transport. The integrated RFID code label gives full traceability of each container by special readers.

Hygienic, clean and safe

This highly hygienic and isothermal transport container is a great solution for the medical and pharmaceutical industries. Ideally suited for transporting medicines, pharmaceutical products and anywhere where it is required to maintain proper

temperatures during transport. Used in hospitals, nursing homes and pharmaceutical companies. The container is designed for an automatic cleaning process after each use.
