## Isothermal Distribution Container - 600x400x300mm

SKU 2R2325

Isothermal distribution container for pharmaceutical products whose transportation requires maintaining appropriate temperatures. RFID sensor allows tracking of transport and storage conditions.

### TECHNICAL DATA

<b>Material</b>	Plastic
<b>Status</b>	Used
<b>Inside dimension length</b>	370
<b>Inside dimension width</b>	210
<b>Inside dimension height</b>	150
<b>Outside dimension length</b>	600
<b>Outside dimension width</b>	400
<b>Outside dimension height</b>	300
<b>Static load</b>	2000
<b>Dynamic load</b>	1000
<b>Product</b>	used, for rent
<b>Type</b>	Distribution boxes, Boxes with lid

### PRODUCT DESCRIPTION

## Isothermal Distribution Container - 600x400x300mm

Isothermal plastic distribution container for products requiring specific transport conditions. The capacity 11.5 Litres. Depending on the number of cooling inserts, it is possible to maintain two temperature ranges: 2-8 deg C or 15-25 deg C, for up to 72 hours. The plastic container is equipped with a special insert, providing temperature insulation. The use

of an additional sensor, makes it possible to track the temperature and any shocks during transport.

## Maximum tightness, track&trace with RFID reader

Thanks to its robust design, the container provides maximum airtightness and insulation from external conditions. Special holes in the integrated lids provide the possibility of sealing the isothermal container for transport. The integrated RFID code label gives full traceability of each container by special readers.

## Hygienic, clean and safe

This highly hygienic and isothermal transport container is a great solution for the medical and pharmaceutical industries. Ideally suited for transporting medicines, pharmaceutical products and anywhere where it is required to maintain proper temperatures during transport. Used in hospitals, nursing homes and pharmaceutical companies. The container is designed for an automatic cleaning process after each use.
