Type	Wooden collars
Product	used

PRODUCT DESCRIPTION

This mp box has the outside dimensions 1200x800x700mm and the inside dimensions 1150x750x700mm. The unloaded weight is 34.2 kilograms and the volume is 0.6m³. This box has a half-hinged folding window on the long side, so that the long side can be made less high. However, the height including the height of the pallet is 844 mm. The box is durable and can often be reused. Moreover, it is easy to take apart. The mp box is very stackable and can be combined with many other products. The boxes can be used worldwide without treatments or extra regulations because they already comply with the ISPM15 regulations. In addition, they are made of Northern European pine and the edges are made of galvanized steel. The gap between the boards is approximately 47 mm.
