PRODUCT DESCRIPTION

This used roll container has the dimensions 720x800x1800mm. The heavy-duty roll container has a wooden base reinforced with metal corners and two metal clamp gates. The rolling floor is made of wood and consists of four planks. The clamp fences are hot-dip galvanized and the wheels are made of rubber. The roll container is equipped with two swivel wheels and two fixed wheels, which have a diameter of 125mm. The weight is 24kg and the roll container has a load capacity of more than 500kg. At your request, this roll container can be equipped with any wheel from our range, for example with a brake, suitable for freezer or both. A sound-absorbing softer rubber wheel with or without a brake, everything is possible. View our range of wheels for the possibilities.

NOTE: This is a used item, all used items that we sell are 100% functional! However, the photo that we display on the website does not guarantee the entire batch that we have in stock. The used products that we sell have visible signs of wear and wear. Based on our more than 30 years of experience, we carefully sort and repair used items. Whether the optical and technical condition is sufficient for you is a personal interpretation. If you want to convince yourself that these items meet your wishes, you are welcome to visit one of our locations to view the selected product after making an appointment by telephone. By placing your order online you agree with the condition of the used products.
