PRODUCT DESCRIPTION

The Isothermal Roll Container is a ATP certified container and meets the food safety requirements with the HACCP certificate. The Isothermal container is 90kg in weight, has a maximum capacity load of 500kg and a 370 litres capacity. This container is ideally suited to the food industry. There are no racks, so there is a smooth interior. The roll container has two swivel castors and two fixed castors of 100mm. The container has a

fast closing system, the door opens up to 270 degrees and has two handles. The container has a EPDM housing that is made of one piece so that it is easy to clean and remains hygienic. The EPDM housing also ensures a high temperature range and resistance to many bases, acids and salts. The cooling and freezing elements are not supplied as standard the Isotherm roll container. Container dimensions are 1670x800x600mm.
