PRODUCT DESCRIPTION

The Isothermal Roll Container has a one piece EPDM housing that sits on a stainless steel frame base with 2 fixed castors and 2 swivel castors of 100mm. The weight of the containers itself is 100kg. The EPDM housing is easy to clean and will remain hygienic because there are no grooves and seams. The housing contains PU insulation foam with heat

conductivity coefficient of 0.39W/m2.k. These containers are ideal for businesses that are active in the food industry and are frequently loading and unloading products in their supply chain. Container dimensions are 1900x810x715mm with 563 litres capacity.
