PRODUCT DESCRIPTION

Two-sided metal roll container - 800x700x1700mm, rubber wheels

A very sturdy and at the same time maneuverable mesh cart with a metal base. The walls of this roll container are attached on the longer

sides, allowing stable transport of items that are larger than the length of the base. The roll container has 4 rubber wheels with a diameter of 100mm: 2 swivel casters and 2 fixed casters. Load capacity of the roll container is 400kg.

Ideal roll container for removals

This model of roll container is most often rented for removals in offices, schools or warehouses. It will successfully transport documents, plastic containers but also plants, dry erase boards or paintings. It can be equipped with shelves for more efficient loading.
