# **PRODUCT SPECIFICATION SHEET**

the longer sides, allowing stable transport of items larger than the base's length. The roll container has 4 castors made of polyamide with a diameter of 100mm: 2 swivel and 2 fixed castors. Load capacity of the roll container is 400kg.

## Ideal roll container for removals

This model of roll container is most often rented for removals in offices, schools or warehouses. It will successfully transport documents, plastic containers but also plants, dry erase boards or paintings. It can have shelves for more efficient loading.
