PRODUCT DESCRIPTION

Lightweight blue plastic dolly has an open base and a weight of 3.5kg. This dolly is suitable for Euro stacking boxes with a size of 600x400mm. 2 boxes of 400x300mm can also be placed per layer.

The dolly is extra manoeuvrable and stable thanks to the four 100mm swivel wheels, consisting of a PP rim and sound-proofing TPR tread. This makes it extra easy to manoeuvre in a narrow corridor or tight space, without leaving marks on the floor. Cheap and extremely strong with a long service life. The wheels have a temperature range of -6°C to +80°C.

Empty dollies can be stacked to save space.
