### PRODUCT DESCRIPTION

These shelves are for use with the Danish Trolley Container and are made of water-resistant 5 layer plywood and galvanised metal. Within the wooden base are two holes to make it easier to lift the shelf and also allows the drainage of any water. The shelves can be used to add extra levels to the container and maximise the space and storage of your products. The weight of the shelf is 4kg, has dimensions of 1275x555mm and has a load capacity of 50kg. This shelf has works with CC Containers.
