PRODUCT DESCRIPTION

This 2 sided roll container is made of galvanised metal and has a nestable A frame construction. The container has a metal grid base and larger grid infill for the sides. The cage can be nested so that you can save space whilst the containers are not in use or are being transported. The roll container has 2 PU fixed castors and 2 PU swivel castors, making the unit very easy to manoeuver and use around the warehouse. The outside dimensions are 1715x800x720mm and the interna dimensions

are 1500x790x670mm. The container has a static load capacity of 350kg.
