PRODUCT DESCRIPTION

This roll container is a full security unit and is equipped with reinforced side panels. The mesh grid infill is on the base and sides of the frame and have a 50x50x3mm spacing. The nestable A frame feature means the cage will nest with other units to save space during storage or transport. The roll container has 2 fixed castors and 2 swivel castors, all with 125mm wheels that have a noise-reducing effect. The container is very easy to move and can be used to store and transport many different types of products. On the front gate there are two handles to help guide the unit whilst moving it. The roll container weight is 60kg. The unit has a load capacity of 500kg, external dimensions of 1676x860x737mm and internal dimensions of 1485x790x675mm.
