<b>Type</b>	2-sided Roll containers, Nesting Roll containers

### PRODUCT DESCRIPTION

Used nestable 2-sided roll cage container made of galvanized metal with an A-frame construction. Equipped with a gridded bottom and gridded side rails with textile fixing straps. The size of the grids in the side rails is 140x145mm. The outside dimensions of the roll container are 800x700x1770mm and the inside dimensions are 800x650x1570mm. The dynamic load capacity is 500kg. The roll container has an innovative construction, it is provided with a folding bottom with a unique spring system. The roll cage container has a gridded metal base with 2 swivel castors and 2 fixed castors. This makes the rolling pallet cage very manoeuvrable and very user-friendly. The wheels are made of PU and the fixed wheels are equipped with a closed wheel box for extra safety. The nestable construction allows you to save space during return transport or when it is in storage and not in use. This roll cage can be fitted with any wheel from our range at your request, for example with a brake, suitable for freezer or both. A sound-absorbing softer rubber wheel with or without brakes, it's all possible. NOTE: This is a used item, all used items that we sell are 100% functional. However, the photo that we display on the website does not guarantee the entire batch that we have in stock. The used products that we sell have visible traces of wear. Based on our more than 30 years of experience, we carefully sort and repair used items. When placing your order online you agree to the condition of the used products.
