PRODUCT DESCRIPTION

This is an extra strong wheel for roll containers that has a load capacity of 150kg and is suitable for heavy loading. This castor has a weight of 1kg and is made of white PP plastic, both the core and the tread of the fixed wheel are made of PP.

The temperature range in which the wheel can be used is -40°C to +80°C

The hole pattern has dimensions of 80x60mm, with holes for 9 mm bolts.

NOTE: Maximum load capacity of 4 wheels is approximately 600 kg, however, the frame of the roll container must also be suitable for 600 kg.
