PRODUCT DESCRIPTION

An extra strong and sound-absorbing fixed wheel for roll containers, flight cases or DJ furniture. The wheel has a load capacity of 200kg and is suitable for medium loads. This fixed wheel has a weight of 0.76kg and is made of a PA plastic core with a blue rubber tread. In short, a distinctive fixed wheel with a diameter of 125mm that leaves no marks on the surface and is very good at reducing noise and offers you more driving comfort. The wheel is suitable for use in a cold store and for the freezer, up to -20°C.

The bearing of the wheel is a ball bearing.

The temperature range in which the wheel can be used is -20°C to +80°C

The hole pattern has dimensions of 80x60mm, with holes for 9mm bolts.

NOTE: Maximum load capacity of 4 wheels is approximately 600kg, however, the frame of the roll container must also be suitable for 600kg.
