**PRODUCT DESCRIPTION**

An extra strong and very good sound-absorbing wheel for roll containers that has a load capacity of 200kg and is, therefore, suitable for heavy loading. This swivel wheel has a weight of 0.93kg and is made of a PA plastic core with a rubber tread. In short, a distinctive swivel wheel with a diameter of 125mm that leaves no marks on your surface and is very good at reducing noise and offers you more driving comfort than other wheels. Thanks to the material of the wheel and a tread made of blue rubber, it can be used on almost all surfaces. The wheel is suitable for use in a cold store and for the freezer up to -20°C.

The bearing of the wheel is a ball bearing.

The temperature range in which the wheel can be used is  $-20^{\circ}\text{C}$  to  $+80^{\circ}\text{C}$

The hole pattern has dimensions of 80x60mm, with holes for 9mm bolts.
