**PRODUCT DESCRIPTION**

**125mm castors with ball bearings - PA / PU**

One standard wheel for roll containers which has a loading capacity of 200 kg, and is therefore suitable for a normal load. This rigid caster has a weight of 0,65kg and is made of gray plastic core PA and a red PU tread. The wheel is sound-absorbing, but less than with a rubber tread. The bearing of the wheel is a ball bearing. Temperature range in which the wheel can be used is -30 & deg; C to + 80 & deg; C The hole pattern has dimensions 80x60mm, provided with holes for bolts 9 mm. NOTE: Maximum load capacity of four wheels is however approximately 600kg frame of the cart must also be suitable for 600kg
