**PRODUCT DESCRIPTION**

An extra strong and very good sound-absorbing wheel with brake for roll containers that has a load capacity of 200kg and is suitable for heavy loading. This swivel castor with brake has a weight of 1kg and is made from a PA plastic core with a rubber tread. In short, a distinctive swivel wheel has a diameter of 125mm that leaves no marks on your surface, is very good at reducing noise and offers you more driving comfort than other wheels. Thanks to the material of the wheel, a tread made of blue rubber, it can be used on almost all surfaces, sound-absorbing and comfortable. The wheel is suitable for use in a cold store and for the freezer up to -20°C.

The bearing of the wheel is a ball bearing.

The temperature range in which the wheel can be used is -20°C to +80°C

The hole pattern has dimensions of 80x60mm, with holes for 9mm bolts.

NOTE: Maximum load capacity of 4 wheels is approximately 600 kg, however, the frame of the roll container must also be suitable for 600kg.
