PRODUCT DESCRIPTION

2 Sided Roll Container 810x680x1680mm - clampin gates

New 2-sided roll container with 2 clamping gates with textile binder. The fences are hot-dip galvanized. Ideal for transporting and storing goods,

indoors and outdoors. The inner dimensions of the roll container are 800x615x1485mm. The height of the base is 185mm. The roll container has a load capacity of 500kg. This makes the roll container suitable for heavy loading. The wheels of the roll container have a PolyPropylene (PP) plastic tread. The diameter of these wheels is 108mm. There are no brakes on the wheels. The roll container has a plastic base.
