PRODUCT DESCRIPTION

The heavy duty swivel castor is the strongest swivel wheel in our range and is made of a grey aluminium core and a brown polyurethane tread with a diameter of 125mm. These wheels have a load capacity of 500kg and are therefore suitable for heavier loads. The castors have their own weight of 2.1kg and are very strong and durable. These wheels are design to reduce noise and to not leave any streaks when they are in use. The wheel has a double ball bearing and work with a temperature range of -20°C up to +60°C. The hole dimensions are 105x84 / 76mm to fit M10 bolts.
