PRODUCT DESCRIPTION

The strongest loose wheel in our range. This wheel is made of an aluminium core and polyurethane tread and is the replacement to the heavy duty fixed and swivel castors. The wheel can take a load capacity of 500kg and is suitable for heavy loads. The wheel on its own weighs 0.8kg and has a diameter of 125mm. The wheel has a double ball bearing and can be used in a temperature range between -3°C and +60°C.
