PRODUCT DESCRIPTION

New anti-theft roll container made entirely of metal, the external dimensions are 800x710x1800mm in this configuration with 125mm wheels with PP core and rubber tread underneath. The inside dimensions are 765x670x1600mm. The mesh of the galvanized gates is 50x50x4mm, which means that you can safely store all types and sizes of goods in this anti-theft roll container. The maximum load capacity of the roll container is 500kg. The chassis of the roll container consists of a metal base, 2 swivel wheels and 2 fixed wheels of 125mm wheels with PP core and rubber tread. The roll container is low-noise, very manoeuvrable and easy to use. For this roll container, you also have the

option to purchase a metal wire mesh shelf or a wooden shelf to create floors in the roll container.
