PRODUCT DESCRIPTION

Roll container anti-theft, 815x724x1810mm, flatpack

New anti-theft roll cage made entirely of metal. The outer dimensions are 815x724x180mm, the inner dimensions are 750x660x1585mm. The full model container has a weight of 47kg. This roll container is equipped with 2 swivel castors and 2 fixed castors made of polypropylene plastic with a diameter of 108mm. In this way, the roll cage is very manoeuvrable and easy to maneuver. In addition, this roll container has a very sturdy recycled plastic bottom. The meshes of the electrolytically galvanized fences are 50x50x4mm which allows you to safely store a wide range of goods in this anti-theft roll container. The maximum load capacity of this safety container is 500kg.

The most unique element of this anti-theft roll cage is that it comes to you as a flat pack. In the flatpack you will find a very clear description of how you can easily assemble this safety container yourself!
