PRODUCT DESCRIPTION

3-sided display roll container with a reinforced plastic bottom. Equipped as standard with 6 shelves with upright edges to ensure that no boxes can fall out. Easy for order picking and then transporting or storing goods. The roll container has a load capacity of 500 kilograms. This makes the roll container suitable for heavy loading. The wheels of the roll container have a PolyPropylene (PP) plastic tread. The diameter of these wheels is 108 millimetres. There are no brakes on the wheels. This roll container can be fitted with any wheel from our range at your request, for example with a brake, suitable for freezer, or both.
