PRODUCT DESCRIPTION

A strong transport wheel that has a load capacity of 700 kg. This makes it extremely suitable for both light and heavy transport, even on less slippery floors! The wheel tread is made of cast polyurethane (PU) with a cast iron core (painted black). The hardness of the tread is 90° - 98° Sh.A (HARD). As a result, the castor wheel guarantees low rolling resistance and low-noise running. The wheel is also wear-resistant, streak-free and equipped with a foot brake at the rear! The wheel comes with mounting plate with the dimensions 135 x 110 mm. The axle hole diameter is 20 mm and the overall height of the castor wheel is 238 mm. This wheel has a tread width of 50 mm and the center distance of the mounting holes is 105 x 80/75 mm. The diameter of the mounting holes is 11 mm and the dimension of the inner fork width is 63.5 mm. The material of the fork (type: MD70) consists of galvanized steel. The

weight of the castor wheel is 6.61 kg and the temperature range of the wheel is -20° C to +80° C. The construction is equipped with a central kingpin, making it very suitable for regular peak loads! These heavy duty castors with polyurethane tread are suitable as an alternative to vulcanized natural rubber when certain chemicals, oils and greases play a role. In addition, this wheel can be mounted under every roll container and dolly in our range. When purchasing wheels, you can take into account various points, so that you purchase the right wheels with the properties you are looking for!
