**PRODUCT DESCRIPTION**

Furniture storage roll container, furniture corlette type, with a size of 2000x1150x1800 mm and a load capacity of 600 kg. The internal dimensions are 1910x1100x1610 mm. This roll container is very suitable for furniture storage and transport, but can actually be used for almost all large items with a lot of volume. The roll container is collapsible and can therefore be nested in an L-shape and can therefore be stored in a

space-saving manner. It has specially shaped side frames, so that several can be stacked on top of each other. 3 roll containers can be stacked on top of each other, whereby the lower container can carry a maximum of 600 kg, or has a load of 600 kg. At the back is a retaining bar for the stability of the goods on the corlette. The roll container has a chipboard of 16 mm thick. The color of this roll container is RAL 5012 blue and has 4 castor wheels of 100 mm. The wheels are made of PP plastic. One of the wheels has a directional lock, to make driving straight ahead easy, if desired. The furniture storage roll container has a weight of 84 kg. If you want to learn more about our corlettes, it might be useful to read our blog with information about the furniture corlette !
