**PRODUCT DESCRIPTION**

An extra strong and very good sound-damping fixed wheel for roll containers, flight cases or DJ cases. The wheel has a load capacity of 300kg and is, therefore, suitable for heavy loads. This castor has a weight of 2kg and is made of a PA plastic core and a rubber tread. In short, a distinctive fixed castor with a diameter of 160mm that does not leave any streaks on the surface is very sound-absorbing and offers you a bit more driving comfort. Thanks to the material of the wheel, a tread of blue rubber, it can be used on almost all surfaces, sound-absorbing and comfortable. This wheel can be used under, for example, your flight case, DJ cases, roll containers or dollies. The wheel is suitable for use in a cold store and for freezing down to -20 ° C. The bearing of the wheel is a ball bearing. The temperature range in which the wheel can be used is - 20 ° C to + 80 ° C.
