PRODUCT DESCRIPTION

Environmental Rack - 1400x1035x350mm - Fluid Collection Tray - 220L

This hot dip galvanized stacking rack has the inner dimensions of 1400x1035x350mm and is suitable for transport and storage. When extra storage capacity is needed, more storage racks can be set up easily and quickly, which makes this storage rack very flexible. This makes this rack also suitable for seasonal peaks. Because these mobile racks are hot-dip galvanized, they are scratch resistant, more robust and corrosion is prevented. The tubes at the corners of the stacking rack are available in different standard heights, this stacking rack also comes exclusive of tubes. This rack has its own weight (excluding tubes) of 84 kilograms and including tubes it weighs 124 kilograms. The load capacity of this

storage rack is 1500 kilograms and it is movable by the two handles that are mounted on the rack.

The outer size from the feet is 1545x1180x350mm and the size of the tank is 1290x1190x160mm. The center distance is 1370x1050mm.

- You can stack 5 racks on top of each other with a total load of 5500 kilograms, with a tube length of 1050mm.

- You can stack 4 racks on top of each other with a total load of 4400 kilograms, with a tube length of 1680mm.

- You can stack 3 racks on top of each other with a total load of 3300 kilograms, with a tube length of 2100mm.
