### PRODUCT DESCRIPTION

## Movable storage rack 1400x1035x500mm - hot dip galvanized, excl. pipes

This hot dip galvanized stacking rack has the inner dimensions of 1400x1035x500mm and is suitable for transport and storage. When extra storage capacity is needed, more storage racks can be set up easily and quickly, which makes this storage rack very flexible. This makes this rack also suitable for seasonal peaks. These post pallet racks are hot-dip galvanized so they are scratch resistant, more robust and corrosion is prevented. The tubes at the corners of the stacking rack are available in different standard heights, this stacking rack also comes exclusive of tubes. This rack has its own weight (excluding tubes) of 102 kilograms and the load capacity of this storage rack is 1500 kilograms. This rack is

movable, because of the two handles that are mounted on the rack.

The outer size from the feet is 1545x1180x500mm and the size of the tank is 1290x1190x310mm. The center distance is 1370x1050mm.

- You can stack 5 racks on top of each other with a total load of 5500 kilograms, with a tube length of 1050mm.

- You can stack 4 racks on top of each other with a total load of 4400 kilograms, with a tube length of 1680mm.

- You can stack 3 racks on top of each other with a total load of 3300 kilograms, with a tube length of 2100mm.
