Type	Tyre racks

PRODUCT DESCRIPTION

These handy tire storage racks are collapsible and stackable. The racks can be stacked up to 10 pieces high when filled with tires. Are the racks folded? Then the racks can be stacked up to 32 pieces high. It is very easy to move the racks with a forklift. The tire racks are powder coated in the RAL color 5010. The racks have removable brackets and folding side walls. The carrying capacity of this storage rack is 300 kilograms. The weight of the rack is 69 kilograms. The storage racks can be accessed from four sides with a forklift. Up to 28 tires with a size of up to 16 inches fit in a rack. A truck with a capacity of 120m³ can transport 210 pieces. The total capacity for tire storage is huge, unlike tire racks which are not stackable. Another type of tire rack will not soon be able to accommodate 280 tires (10 layers times 28 pieces) in total. This tire rack offers a super efficient way to store tires! Tire racks can help you safely store car and truck tires. Especially during busier periods or during the tire change weeks, tire racks can offer an efficient and space-saving solution. If you want to know more about how to use these racks, check

out our blog about tire racks ! PLEASE NOTE: This is a used item, all used items we sell are 100% functional! However, the photo that we display on the website does not guarantee the entire batch that we have in stock. The used products we sell have visible signs of wear and wear and tear. Based on our more than 30 years of experience, we carefully sort and repair used items. Whether the optical and technical condition is sufficient for you is a personal interpretation.
