TECHNICAL DATA

Material	Metal
Outside dimension length	1150
Outside dimension width	430
Outside dimension height	1640
Product	new
Type	Small parts storage bins

PRODUCT DESCRIPTION

Storage system for storage bins with dimensions 1150x430x1640 mm. The metal box rack can be approached from one side and is therefore best placed with the back against a wall. The rack has four legs and is therefore not mobile. A two-sided version with wheels is also available. The bin cabinet comes with 69 storage bins in various sizes (see picture). In this way, small goods such as screws or bolts remain sorted and slightly larger materials, such as those often used in the automotive industry, are also easily accessible when they are sorted and stored. PLEASE NOTE: the color layout of the bins may differ from the photos.
